### LEGISLATIVE COUNSEL'S DIGEST

AB 8, as amended, Oropeza. Education finance.

(1) Existing law requires the State Board of Education to adopt standards and criteria to be used by local educational agencies in the development of annual budgets and the management of subsequent expenditures from that budget. Existing law requires those standards and criteria to include comparisons and reviews of reserves and fund balances.

This bill would, notwithstanding any provision of law, authorize a local education agency to count any amount of state funding deferred from the current fiscal year and appropriated from a subsequent fiscal year for payment of current year costs as a receivable in the current year.

[1] Corrected 2-5-03—See last page.

The bill would, notwithstanding any provision of law and for the 2002–03 fiscal year only, authorize a local educational agency to use for purposes determined by its governing body up to 50% of its reserves for economic uncertainties and up to 50% of the balances, as of July 1, 2002, of restricted accounts in its General Fund, excluding restricted reserves committed for capital outlay, bond funds, sinking funds, and federal funds. The bill would state the intent of the Legislature that local educational agencies use this flexibility for certain purposes and make every effort to maintain a prudent expenditure plan that ensures solvency for the 2002–03 fiscal year and in subsequent fiscal years.

(2) Existing law requires the Superintendent of Public Instruction to make the second principal apportionment on or before June 25th of each year.

This bill would instead require this apportionment to be made on or before July 2. The bill would make conforming and technical changes in this regard.

(3) *Existing law requires a local governing board of a school district that receives funding pursuant to the Instructional Materials Funding Realignment Program to provide a pupil with standards-aligned instructional materials, as adopted by the State Board of Education, pursuant to a specified provision, subsequent to the adoption of content standards for kindergarten and grades 1 to 8, inclusive.*

*This bill would provide that for the 2002–03 and 2003–04 fiscal years only, that requirement may be satisfied if the governing board of a school district provides a pupil with standards-aligned instructional materials that were adopted by the State Board of Education pursuant to a repealed provision of the Education Code.*

(4) *The Budget Act of 2001 appropriated \$2,124,000 to the State Department of Education for capital outlay for the California School for the Deaf.*

*This bill would revert those funds to the General Fund and, instead, would appropriate \$2,144,000 in the Budget Act of 2002 from the Public Buildings Construction Fund to the State Department of Education for capital outlay for that school.*

(5) Existing law states the intent of the Legislature that education programs with voluntary participation be funded at statutorily authorized levels and requires the Controller, upon approval of the Director of Finance to transfer unobligated funds between specified voluntary participation program to the extent needed to full fund

eligible participation and gives first priority for the allocation of savings to the CalSAFE program.

This bill would, notwithstanding the above, require the Controller, upon request of the Superintendent of Public Instruction and approval of the Director of Finance, to transfer unencumbered funds between any of remedial supplemental instruction programs for the purpose of ensuring that supplemental instruction and remedial programs are funded at statutorily authorized levels. By authorizing this transfer, the bill would make an appropriation.

~~(4) Existing law requires a revenue limit to be calculated for each school district and each county superintendent of schools and requires the amount of the revenue limit to be adjusted for various factors. Existing law requires the Superintendent of Public Instruction to take into account the revenue limit of a school district and county superintendent of schools when apportioning funding to school districts and county superintendents of schools.~~

~~This bill would reduce the revenue limits for school districts, county offices of education, necessary small schools, charter schools, adult education and regional occupational centers and programs by \$25 per unit of average daily attendance. The bill would make conforming and technical changes.~~

~~(5)~~

(6) Existing law requires the State Allocation Board to apportion funds from the State School Deferred Maintenance Fund to school districts based on a local one-to-one match up to a maximum amount based in part on the district's total expenditures and certain ending fund balances, excluding amounts expended for capital outlay or debt service.

This bill would waive the local match requirement for the 2002–03 fiscal year.

~~(6)~~

(7) Existing law appropriates \$145,775,000 from the General Fund for transfer to the Instructional Materials Fund for one-time instructional materials grants to school districts.

This bill would require schools receiving these grants to give first priority to the purchase of standards-aligned English language arts reading materials for English learners and *standards-aligned intervention materials* for pupils in grades 4 to 8, inclusive.

~~(7)~~

(8) Existing law, the Budget Act of 2002, makes various appropriations for purposes of the public education.

This bill reverts specified appropriations made in that Budget Act to the General Fund, thereby reducing those appropriations.

~~(8)~~

(9) Existing law, including the Budget Acts of 2000 and 2001, makes various appropriations for purposes of the public education.

This bill would revert specified appropriations to the Proposition 98 Reversion Account in the General Fund.

~~(9)~~

(10) This bill would reappropriate \$431,610,000 from the Proposition 98 Reversion Account in the General Fund, \$356,810,000 of which would be for purposes of regional occupational centers and programs and \$74,800,000 of which would be for adult education. These funds would be applied toward the minimum funding requirements for school districts and community college districts imposed by Section 8 of Article XVI of the California Constitution.

This bill would fund CalWORKs Stage 3 child care by reappropriating specified federal funds, appropriating other specified federal funds, and requiring the use of specified federal funds appropriated for another purpose.

~~(10)~~

(11) Existing law establishes the various segments of the public higher education system in the state. These segments include the University of California, which is administered by the Regents of the University of California, the California State University, which is administered by the Trustees of the California State University, and the California Community Colleges, which is administered by the Board of Governors of the California Community Colleges.

The Budget Act of 2002 makes numerous appropriations for the support of the various components of the public higher education system in the state.

This bill would reduce a variety of higher education appropriations that were made in the Budget Act of 2002, and would revert the amounts of these reductions to the General Fund. The bill would also make various related mechanical and conforming changes, including the appropriation of funds for community college apportionments in the 2003–04 fiscal year to replace funds previously appropriated for the 2002–03 fiscal year that are reverted by this bill.

The bill would require that the appropriation be included in the amounts appropriated by the state in the 2003–04 fiscal year for purposes of meeting the state’s minimum funding obligation to school districts and community college districts under Section 8 of Article XVI of the California Constitution for that fiscal year.

(11)

(12) *This bill would appropriate \$370,263,000 from the General Fund to the State Department of Education for the 2003–04 fiscal year in accordance with a specified schedule. This appropriation would be applied toward the 2003–04 fiscal year minimum funding requirements for school districts and community college districts imposed by Section 8 of Article XVI of the California Constitution.*

(13) This bill would make operation of its provisions contingent on enactment of AB 4 of the 2003–04 First Extraordinary Session.

Vote: majority. Appropriation: yes. Fiscal committee: yes. State-mandated local program: no.
